

Assertion 10 dispensation

Under regulations documents published before September 2018 are exempt from the new assertion 10 regulations as they are archived. They are available in an alternative format on request to: clerk@germansweek-pc.gov.uk

Disclaimers and the accessibility statement

New regulations require a formal accessibility statement including a section detailing none accessible content. Many third party documents and some scanned PDF's are not accessible (e.g. AGAR 2)

Disproportionate Burden

A brief assessment showing the cost in time and money to convert non accessible files to accessible, was carried out. The assessment found that the cost of amending these inaccessible files out-weighs the benefit to the council and members of the public. Therefore, the PC files will be kept as they are and we have provided a clear contact method detailing how documents in an alternative format may be requested. (There may be a small charge to cover postage, should it be required.)

Signatures will be redacted wherever possible.

Agreed on 17/06/2026
